Instructions

U.S. Customs and Border Protection (CBP) Regulations. 19 CFR 12.112(a) requires an importer or the importer's agent desiring to import pesticides or devices into the United States to submit, prior to arrival of the shipment in the United States, a Notice of Arrival of Pesticides and Devices on U.S. Environmental Protection Agency (EPA) Form 3540-1. In the alternative, the importer or the importer's agent may file an electronic alternative to the Notice of Arrival, with the filing of the entry documentation, via any CBP-authorized electronic interchange system. The NOA will be used by:

- Part I. **Importer of Record or Licensed Customs Broker:** The importer of record or licensed customs broker must complete Part I of the NOA form. A separate NOA must be submitted for each pesticide or device in each shipment prior to its arrival at the port of entry. To expedite the handling of pesticide or device shipments, submit NOA(s) to the EPA office listed below having jurisdiction over the state/territory of the port of entry. It is recommended that all applicable blocks in Part I be completed prior to submission to EPA, and that a copy of the label affixed to the product be submitted with each NOA. Additional supporting documentation (e.g., CBP Form 7501, 3461, or 3461 ALT) for validating information provided may also be included with the submission. When providing an address, the complete address should include the mailing location, e-mail address, and telephone number of the contact person. EPA may require and request additional documentation in order to review and make final compliance determinations regarding import shipments. (FIFRA §§ 8(b) and 17(c))
- Part II. **EPA:** EPA will complete Part II, indicating the disposition of the shipment, sign and return the NOA(s) to the importer or agent for presentation to CBP at the time of entry.
- Part III. **CBP:** CBP will compare the information shown on the NOA(s) with the entry documents and the shipment, bringing any discrepancies to EPA's attention before the shipment is released, and noting discrepancies in the Remarks section. If the importation is not handled by CBP in the manner instructed in Part II, this should also be noted in the Remarks.
