

Manufacturer: Berry Plastics Corporation
Model: 211DCP
ASTM Type: VIIL

Description:

This package consists of a one piece plastic aerosol overcap (Figure 1), which fits over the valve cup on an aerosol container.

Figure 1

Inside the overcap there is a cup designed to fit over the valve cup of the container (Figure 2). Inside the cup are three fins. The aerosol overcap is removed by pushing up at the location marked "HERE", which corresponds with one of the fins (see arrow in Figure 2)

Figure 2

The manufacturer's instructions on the closure are a combination of written text and graphical illustrations (Figure 3):
