

Manufacturer: M & M Industries Inc.
Model: Life Latch
ASTM Type: ID

Description:

The package consists of a plastic open head pail and a plastic continuously threaded pail lid with a lever (Figure 1).

Figure 1

The package is opened by holding a lever (Figure 2 red lever) on the pail lid while unscrewing the lid counterclockwise and lifting it off the open head pail. When the lid is closed the lever fits into a groove for one of the sawtooth ridges on the inside circumference of the pail neck (Figure 3) so that the pail cannot be unscrewed.

Figure 2

Figure 3

The manufacturer's instructions on the pail lid/cover are (Figure 4):

OPEN (with an arrow pointing counterclockwise)

CLOSE (with an arrow pointing clockwise and underneath the words)
TO CLOSE

TOP (indicating the top of the red lever)

TO OPEN:
PUSH BACK TOP OF
LEVER WITH THUMB
WHILE TURNING COVER
