

Manufacturer: MeadWestvaco (MWV): Slatersville, LLC
Model: PS186 (Loctop)
ASTM Type: III G

Description:

The PS 186 closure is a one piece plastic white snap closure with a red dispensing spout (see Figures 1A and 1B).

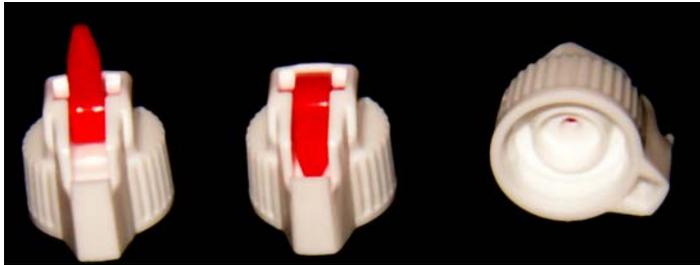

Figure 1A

Figure 1B

The closure is friction fit permanently to the container by means of a plug seal inside the closure (see black arrow in Figure 2A) fitting into the container neck (see yellow arrow in Figure 2A). The PS 186 has a female attachment fitting (see Figure 2B), which means the closure fits over the container neck.

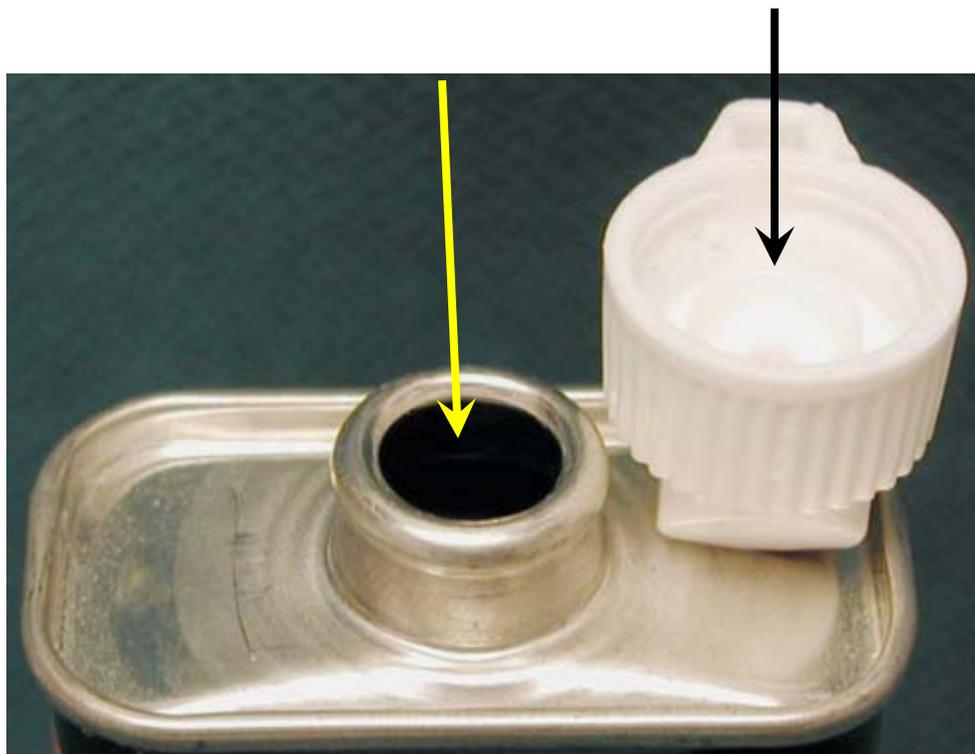

Figure 2A

Figure 2B

The PS 186 spout fits into a rectangular groove on the closure (see Figure 1B). The closure is opened by using a fingernail, coin, ball point pen or some other device to lift the spout out of the groove and then lift the spout up (see Figure 3).
