 - **If your RCO DOES NOT have electronic signature capabilities**, you must allocate more time for the update.
 - Your RCO will need to print, sign and mail the company association request with the new roles
 - To ensure that the request is processed in time to meet the April 30 deadline, **mail must be postmarked no later than April 7**
 - EPA recommends using a courier service to ensure timely delivery

2010-2014 Unused Credits

User Community Feedback – Question 1

QUESTION

When can users generate 2015 fuel credits? Do I need to wait until I have submitted the 2014 compliance reports?

ANSWER

2015 credits can be generated in the system now. Reporting for 2014 compliance is a separate process and does not affect 2015 credits.

User Community Feedback – Question 2

QUESTION

What if I discover a mistake after I upload my unused credits from 2010 – 2014?

ANSWER

EMTS v4.0 does not allow you to change the unused credits that you upload, but that functionality will be included in the EMTS v4.1 release. You will then have the ability to upload a corrected spreadsheet to change the values in EMTS.

What Does this Mean for Me?

- Deadline for uploading unused 2010-2014 credits in EMTS is **April 30, 2015**
- **Prior to April 30, 2015**, you need to:
 - Gain access to Fuels ABT in EMTS by:
 - Updating your registration in OTAQREG
 - Adding the Fuels ABT Role
 - Submit any paperwork **by April 7, 2015**
 - Upload your unused credits
