

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF ENVIRONMENTAL QUALITY
LANSING

KEITH CREAGH
DIRECTOR

January 15, 2016

Mr. John Mooney
United States Environmental Protection Agency
Region 5
77 West Jackson Boulevard
Mail Code: AR-18J
Chicago, Illinois 60604-3507

Dear Mr. Mooney:

The Michigan Department of Environmental Quality (MDEQ) is submitting this letter to identify two companies in Michigan that are subject to requirements in the Data Requirement Rule (DRR). Escanaba Paper in Escanaba, Michigan and Lafarge Cement in Alpena, Michigan have exceeded the emission applicability threshold of 2,000 tons of sulfur dioxide (SO₂) per year based on the Air Quality Division's (AQD) most recent emissions inventory for 2014. A portion of the inventory containing the largest SO₂ sources in the State is enclosed.

The companies were previously contacted by letter on December 8, 2015, notifying them of the applicability of the DRR to their facilities. A timetable for required actions was included. The AQD will be working with these two companies to assure compliance with the requirements going forward.

If you have any questions regarding this submittal you may contact Mr. Robert Irvine, AQD, at 517-284-6749; irviner@michigan.gov; or MDEQ, AQD, P.O. Box 30260, Lansing, Michigan 48909-7760; or you may contact me.

Sincerely,

Lynn Fiedler, Chief
Air Quality Division
517-284-6773

Enclosures

cc: Ms. Barb Rosenbaum, MDEQ
Mr. Robert Irvine, MDEQ

	The uncolored facilities are those subject to the Data Requirements Rule (DRR), based on the 2014 MAERS data in the last column.					
	The yellow facilities are those above the 2000 ton per year of SO2 threshold but subject to the consent order and not the DRR.					
	The blue facilities are those below the 2000 tons per year of SO2 threshold.
