EVCIS-8577	<p>New Feature/Functionality: Report Setup form validation.</p> <p>Description: Manufacturers will be able to view form validation error messages for invalid data and required fields on the Report Setup screen.</p>	Defects/Recalls
<b>Defects/Recalls Report Description</b>		
EVCIS-8681, EVCIS-9187, EVCIS-9267	<p>New Feature/Functionality: Add Defects and Recalls Report Description information.</p> <p>Description: Manufacturers will be able to view, select, and enter report description data for applicable report types (Defect, Investigation, Recall, Remedial, and Quarterly). The list of contacts is populated from the manufacturers Maintain Manufacturer Profile.</p>	Defects/Recalls
EVCIS-8683	<p>New Feature/Functionality: Guided Interface on the Report Description screen.</p> <p>Description: Manufacturers will be guided by the user interface as to which Report Description fields are required, optional, and not allowed.</p>	Defects/Recalls
EVCIS-8577	<p>New Feature/Functionality: Report Description form validation.</p> <p>Description: Manufacturers will be able to view form validation error messages for invalid data and required fields on the Report Description screen.</p>	Defects/Recalls
EVCIS-9385	<p>New Feature/Functionality: Quarterly Reports cannot reference Old Recall Report/Remedial Plan ID's</p> <p>Description: Manufacturers will receive an error when attempting to submit Quarterly Reports with old Recall Report and Remedial Plan ID's.</p>	Defects/Recalls
<b>Defects/Recalls Report Details</b>		
EVCIS-8953, EVCIS-8877, EVCIS-8831, EVCIS-8974	<p>New Feature/Functionality: Add Defects and Recalls Report Details information.</p> <p>Description: Manufacturers will be able to view, select, and enter Report Details data for applicable report types (Defect, Investigation, Recall, Remedial, and Quarterly).</p>	Defects/Recalls

EVCIS-8801	New Feature/Functionality: Guided Interface on the Report Details screen.  Description: Manufacturers will be guided by the user interface as to which Report Details fields are required, optional, and not allowed.	Defects/Recalls
EVCIS-8972	New Feature/Functionality: Report Details form validation.  Description: Manufacturers will be able to view form validation error messages for invalid data and required fields on the Report Details screen.	Defects/Recalls
<b>Defects/Recalls Family and Model Details</b>		
EVCIS-8958, EVCIS-8802, EVCIS-8807, EVCIS-8960, EVCIS-8964,	New Feature/Functionality: Add Defects and Recalls Family and Model Details information.  Description: Manufacturers will be able to view, select, and enter Family and Model Details data for Defect and Recalls report applicable report types (Defect, Investigation, Recall, Remedial).	Defects/Recalls
EVCIS-9179, EVCIS-9341	New Feature/Functionality: Guided Interface on Family and Model Details screen.  Description: Manufacturers will be guided by the user interface as to which Family and Model Details data elements are required, optional, and not allowed.	Defects/Recalls
EVCIS-8975	New Feature/Functionality: Family and Model Details form validation.  Description: Manufacturers will be able to view form validation error messages for invalid data and required fields on the Family and Model Details screen.	Defects/Recalls
EVCIS-8969, EVCIS-8968, EVCIS-8963, EVCIS-8962	New Feature/Functionality: Data Driven functionality on the Family and Model Details screen.  Description: Manufacturers will be able to:  - View automatically populated Family Name, and Model Year data for all industries automatically populated on the Family and Model Details screen.  - View automatically populated Evaporative Family Name, and Carline Manufacturer code data for Light-Duty and Heavy-Duty Highway Class 2b/3 Vehicles.	Defects/Recalls
<b>Defects/Recalls Review and Confirm</b>		
EVCIS-8572, EVCIS-8680 EVCIS-8795, EVCIS-8877, EVCIS-9179, EVCIS-9341, EVCIS-8974, EVCIS-9255, EVCIS-9307, EVCIS-9352	New Feature/Functionality: Business Rule Validation for Report Setup, Report Description, Report Details, and Family and Model Details screens.  Description: Manufacturers will be able to validate information on the Report Setup, Report Description, Report Details, and Family and Model Details screens for Defects and Recalls to ensure conformance with data requirements.	Defects/Recalls
EVCIS-8964, EVCIS-8831, EVCIS-8681, EVCIS-9197	New Feature/Functionality: Review and Confirm screen.  Description: Manufacturers will be able to review data entered on previous screens on the Review and Confirm screen.	Defects/Recalls
EVCIS-8976	New Feature/Functionality: Review and Confirm business rule validation.  Description: Manufacturers will be able to view business rule validation error messages for invalid data and conditionally required fields on the Review and Confirm screen.	Defects/Recalls
EVCIS-8816, EVCIS-8952, EVCIS-8677, EVCIS-8677, EVCIS-8952, EVCIS-8966, EVCIS-8967, EVCIS-9311, EVCIS-8971, EVCIS-8970	New Feature/Functionality: Submit Defects and Recalls reports.  Description: Manufacturers will be able to submit and complete a validated Defect, Investigation, Recall, Remedial, or Quarterly Report.	Defects/Recalls
<b>Defects/Recalls Complete Screen</b>		
EVCIS-8678	New Feature/Functionality: Defects and Recalls Complete screen.  Description: Manufacturers will be able to view the Complete screen, indicating that the Defects and Recalls report was submitted.	Defects/Recalls

<b>Defects/Recalls Report Saving</b>		
EVCIS-8730, EVCIS-9119	<p>New Feature/Functionality: Save incomplete Defects and Recalls reports.</p> <p>Description: Manufacturers will be able to save their entered data by clicking the Save button on the Report Description, Report Details, or Family and Model Details screen.</p>	Defects/Recalls
<b>Defects/Recalls Security Integration</b>		
EVCIS-9112, EVCIS-9289, EVCIS-9290, EVCIS-9215	<p>New Feature/Functionality: Manufacturer Navigation between Defects and Recalls and CDX applications.</p> <p>Description: Manufacturers will be able to:</p> <ul style="list-style-type: none"> <li>- Navigate between the EV-CIS Home Page and the Defects and Recalls module.</li> <li>- Navigate between the Defects and Recalls module and the EV-CIS Home Page.</li> <li>- Navigate between the Defects and Recalls module and the CDX applications.</li> <li>- Navigate between the Defects and Recalls module and Compliance Reporting Home Page.</li> </ul>	Defects/Recalls
<b>Documents Module Enhancements</b>		
EVCIS-8503 EVCIS-9217 EVCIS-9391	<p>New Feature/Functionality: Updated EV-CIS certification and compliance document types.</p> <p>Description: Updated certification documents for Heavy-Duty Engines (HD Engines), Heavy-Duty Vehicles (HD Vehicles), Locomotive, Marine Compression-Ignition (Marine CI), Motorcycle/All-Terrain Vehicles (MC/ATV), Non-Road Compression-Ignition (NRCI), Non-Road Spark Ignition (NRSI).</p>	Documents Module
EVCIS-8500 EVCIS-8495 EVCIS-8777 EVCIS-9007 EVCIS-9257 EVCIS-9333	<p>New Feature/Functionality: Updated functionality for the Upload Compliance Documents module.</p> <p>Description: The Upload Compliance Documents screen displays updated compliance document types based on the industry and compliance program selected via the Compliance Reporting Home Page. The general Upload Compliance Documents module has been removed.</p>	Documents Module
