---

Hesci (Hello),

I would like to urge you to withdraw the October 1, 2020 decision approving the Governor of the State of Oklahoma's July 22, 2020 request to extend approval of the State's EPA-approved environmental regulatory programs into certain areas of Indian country within the State. The Native Nations are the rightful stewards of the land and we must have environmental regulation over issues on our land.

Mvto!

--

Thank you,

*Amy Warne, MBA, RD/LD*
