

<b>EV-CIS Software Release Notes, Release 34.0</b>		
<b>Key</b>	<b>Manufacturer Software Release Notes</b>	<b>Compliance Program</b>
<b>Heavy-Duty Vehicles</b>		
<b>HDV GHG Maintenance and Enhancements</b>		
EVCIS-16652	<p>Problem: Manufacturers cannot enter Intelligent Controls in the Heavy-Duty Vehicle (HDV) GHG (Greenhouse Gas) certification module.</p> <p>Solution: Modified HDV-BR150 so that all vehicle regulatory subcategories can and must enter a value for the Predictive Cruise Control with GPS Indicator (HDV-260).</p>	HDV
<b>Light-Duty/Greenhouse Gas</b>		
<b>Light-Duty/GHG Maintenance and Enhancements</b>		
EVCIS-16305	<p>New Feature/Functionality: Updated Fuel Economy (FE) and Carbon-Related Exhaust Emissions (CREE) calculations for Plug-in Hybrid Electric Vehicle (PHEV) charge sustaining tests.</p> <p>Description: Modified FE and CREE calculations so that mileage will not be automatically adjusted when System Miles &gt;=6200 for PHEV charge sustaining tests.</p>	Light-Duty/GHG
EVCIS-15594	<p>Problem: '24 - Electric Vehicle' enumeration for Carline Class Code (CL-5) in the Light-Duty (LD) Carline module is obsolete.</p> <p>Solution: Modified business rule text for LD-CERT-CL-BR024 to note that the '24 - Electric Vehicle' enumeration is obsolete.</p>	Light-Duty/GHG
<b>Maintain Manufacturer Information</b>		
<b>Maintain Manufacturer Information Maintenance and Enhancements</b>		
EVCIS-15543	<p>Problem: Certification notifications are not being sent to email addresses for active contacts in the Maintain Manufacturer Information module.</p> <p>Solution: Resolved the issue so that notifications will be sent to designated active contacts in the Maintain Manufacturer Information module.</p>	Maintain MFR Information
<b>Marine Compression Ignition</b>		
<b>Marine CI Maintenance and Enhancements</b>		
EVCIS-17398	<p>Problem: "Survey" is misspelled in sections 1.4 and 1.5 on the Engine International Air Pollution Prevention (EIAPP) certificate.</p> <p>Solution: Corrected typo.</p>	Marine CI

Motorcycle/All Terrain Vehicles		
MC/ATV Maintenance and Enhancements		
EVCIS-16951	<p>Problem: Incorrect regulations cited in the options for the "Fuel Line CBD Technology Type" field (MC-604).</p> <p>Solution: Resolved the issue so that the correct regulations are cited.</p>	MC/ATV
EVCIS-16737	<p>Problem: 'Road Load Force' field (MC-518) on the CSI.5 tab is limiting the total number of characters (numbers and decimal point) to four.</p> <p>Solution: Resolved the issue so that users can enter up to five characters (four numbers and a decimal point) in this field to match what is allowed according to the data requirements.</p>	MC/ATV
Nonroad Spark Ignition		
NRSI Maintenance and Enhancements		
EVCIS-17326	<p>Problem: The description for enumeration CP3 for Engine Certification Test Fuel ("California Phase 3") is incorrect for Large SI and Marine SI.</p> <p>Description: Updated business rule text to change "California Phase 3" to "CARB LEV3 E10 Regular Gasoline".</p>	NRSI
EVCIS-16719	<p>Problem: Enumerations for Small SI Test Cycle Used (NRSI-EF-190) are incorrect.</p> <p>Description: Updated Small SI Test Cycle Used (NRSI-EF-190) enumerations by changing three existing descriptions, adding two new enumerations, and restricting the use of two (now obsolete) enumerations for new submissions.</p>	NRSI
EVCIS-10898	<p>Problem: 'CARB LEV3 E10 Regular Gasoline' is missing from the Certification Test Fuel (NRSI-EF-187) list of values for the Large and Marine SI sectors</p> <p>Solution: Added 'CP3' (CARB LEV3 E10 Regular Gasoline) for NRSI Large and Marine SI Certification Test Fuel (NRSI-EF-187) and modified applicable business rules to include 'CARB LEV3 E10 Regular Gasoline' as a valid Certification Fuel Type.</p>	NRSI
EVCIS-7051	<p>Problem: Engine family submission returns exception for not having 'Useful Life Period' selected.</p> <p>Solution: Resolved the issue by adding a new business rule noting that Useful Life Period is required if Engine Family Industry Category (NRSI-EF-11) equals 'SSI' (Small SI).</p>	NRSI
Notifications		
Notifications Maintenance and Enhancements		
EVCIS-15239	<p>Problem: Confirmatory compliance notifications are not being sent.</p> <p>Solution: Resolved the issue so that confirmatory compliance notifications are not being sent to the appropriate contacts.</p>	Notifications

Production Volume Reporting		
PVR Maintenance and Enhancements		
EVCIS-17292	<p>Problem: Duplicate engine models erroneously display on the PVR Report Details Screen for the Heavy-Duty Highway (HDH) Diesel Engines, HDH Gasoline Engines, Locomotive, NRCI, and On-Highway Motorcycle (HMC) industries.</p> <p>Solution: Resolved the issue so that engine models are no longer duplicated.</p>	Production Volume
EVCIS-17282	<p>Problem: Commercial Model Name field is not updated when editing or revising a Production Volume Reporting (PVR) submission.</p> <p>Solution: Resolved the issue so that Commercial Model Name field is updated correctly on the Report Details screen.</p>	Production Volume
EVCIS-16940, EVCIS-16864	<p>Problem: CR-PV-BR121, CR-PV-BR120, CR-PV-BR119, and CR-PV-BR047 were firing incorrectly.</p> <p>Solution: Resolved issue so that business rules fire correctly and added identifying vehicle family and file name information to business rule text.</p>	Production Volume
