No. 24-1117

**RULE 26.1 CORPORATE DISCLOSURE STATEMENT OF
AMERICAN EXPLORATION & PRODUCTION COUNCIL**

Pursuant to Federal Rule of Appellate Procedure 26.1 and D.C. Circuit Rule 26.1, Petitioner American Exploration & Production Council (“AXPC”) states that it is an incorporated national trade association representing 33 leading independent oil and natural gas exploration and production companies in the United States. AXPC members are “independent” in that their operations are predominantly limited to exploration for and production of oil and natural gas. Its members operate autonomously, unlike their fully integrated counterparts, which operate in additional segments of the energy

business, such as downstream refining and marketing. AXP members are leaders in developing and applying the innovative and advanced technologies necessary to explore for and produce oil and natural gas in environmentally responsible ways. AXP has no parent corporation and no publicly held corporation owns more than 10% of its stock.
