

Erratum

EPA Review of California's 2024 CWA Section 303(d) List of Impaired Waters December 18, 2024

The following water quality-limited segment (WQLS) was mistakenly omitted from Table 3 in the [EPA review document](#) (WQLS identified by EPA for inclusion on the 2024 303(d) List).

Waterbody Name	Assessment Unit ID	Parameter Name	Reason for disapproval
San Gregorio Creek (San Mateo County)	CAR2023001419980929144335	Sediment	Does not meet Cat. 4b requirements

This WQLS, in addition to the eight listed in Table 3 of the EPA review document, are the nine total WQLS that were erroneously placed into Category 4b in California's 2024 Integrated Report. EPA is adding the nine WQLS to California's 303(d) List.
